From the Raleigh Sentinal. FELLOW CITIZENS: We congratulate you upon the complete and noble victory which you have just won at the ballot box. A victory of truth, justice, liberty and law, over corruption and high handed usurpation and tyranoy. Let us enjoy our triumph with the same dignity and moderation which characterized us as a people, before and during the excitement of the election.

It was the policy of some of the leaders of our opronents, to drive us into violent resistance, and efforts were made to do so by repeated instances of lawlessness and oppression. But thanks to the good sense of our people, they failed, signally failed, in their wicked purposes, and the whole American people now see too plainly to be misled in the future, that the mili tary movement set on foot here, was gotten up upon false pretences by desperate men, for the purpose of carrying the election and keeping

has shown how much they were mistaken in the character of the people of North Carolina. We very well know, fellow citizens, that this is not a mere party triumph-true it is, the victory has been won in the name of our party. But le ne not forget that it is a victory due in a great degree to the uprising of honest and Conservative men of all parties. The telegraph has already informed our readers of the arrest of Josiah Turner, Jr., the editor of the Raleigh Sentinel. The Sentinel says:

DIED.

The vast and continually increasing sales of Hostetter's Stomach Bitters have provoked the envy of a certain class of dealers in various parts of the country, who are trying to substitute their utterly worthless local nostrums for the most popular proprietary medicine in the world. These imposters hope by their false statements to obtain from the millions who patronize the great American Tonic, a sufficient number of customers to make their speculations upon the health of their neighbors profitable. As the demand for Hostetter's Bifters is now so large and urgent as manufacture, those petty attempts to wring in the merest trash by false representations, are of little consequence to its proprietors. They are, however, a serious evil to the victimized. If, for example, at this warm season, when a real invigorant is greatly needed, the sufferer from general debility, indigestion, bilionsness or neryous weakness, is coaxed into using a wishywashy compound without any medicinal virtue, instead of the sovereign specific in which the rarest tonic and alterative vegetable elements are scientifically combined, it is obvious that he will rue the day when he allowed himself to be ty-second Ward Social Club, 125 men; the thus deluded.
